FINANCIAL LITERACY UNDER PRESSURE:

*Protecting Vulnerable Youth from
Hidden Financial Traps*

Online workshop on well-being determinants
Part 1 of YOU CONNECT series

Data confirm that financial literacy is closely related to unemployment, education, geographical displacement and well-being. Join our YOU CONNECT online workshop series to explore the growing financial literacy challenges facing vulnerable youth, with insights from the Czech Republic and comparisons to OECD data and other countries. Discover how Czechia is tackling the issue and learn to recognize some unfair tactics used against all of us. Bring your questions and experiences — dedicated time for discussion will be part of the session.
